

Good afternoon, everyone!

NANCE HR ONLY: FOLDER/AGENDA FEE

As of today, only 14 of the 29 students have paid the \$4 folder/agenda fee. Please send this in as soon as possible so the bill can be paid. If you do not know if your child has paid, let me know and I'll check the list.

FIELD TRIP

We have a field trip next Friday, September 23 to Angel Mounds. The permission slip went home with students TODAY.

Important points:

- The cost is \$7.
- Students need a sack lunch.
- Students need a drink, or bottled water is available for purchase.
- This trip is all outside (rain or shine) and can be messy, especially if it rained recently. Dress accordingly.

MATH

In Math, we are moving on to Measurement. We are concentrating on Customary units at this time (U.S. units, such as feet/yards/inches/miles, cups/quarts/gallons/pints, pounds/ounces). We are saving metric units for another time later this year. Students must be able to convert between units and solve multi-step problems. I will put examples up on the site this weekend. A definite test date has not been set, but will be around Tuesday, September 27th.

SOCIAL STUDIES

The students have a Map Test on Monday.

SCIENCE

We will be moving on to the phases of the moon next week, followed by constellations.

Have a great weekend!
